Education

Stevens Institute of Technology

B.S. Computer Science / GPA: 3.00

May 2028

Hoboken, NJ

Relevant Coursework: Algorithms, Computer Architecture, Systems Programming, Discrete Structures, Theory of Computation, Security, Privacy & Society, Web Programming, AI & Machine Learning

Technical Skills

Languages: Python, Java, C++, C, SQL, JavaScript, TypeScript, Assembly

Frameworks & Tools: React, Next.js, FastAPI, Node.js, PostgreSQL, MongoDB, Prisma, Pandas, Docker, Git, GitHub Actions, REST APIs, WebSockets

Projects

HyperRisk - Real-Time Portfolio Risk Terminal

Next.js, TypeScript, FastAPI, PostgreSQL

- Built a production-ready, read-only Hyperliquid risk terminal combining REST and WebSocket feeds with Decimal-based exposure, leverage, P&L, funding, liquidation-distance, stress-test, alert, and replay analytics.
- Engineered resilient ingestion with bounded reconnects, malformed-frame validation, a 1,000-message drop-oldest queue, Docker and CI workflows, and 25 passing unit and integration tests.

Customer Service AI Platform

Next.js, TypeScript, PostgreSQL, AI

- Built a full-stack support platform for 1,000+ tickets with an AI chatbot, sentiment analysis, automated escalation, role-based access control, and an analytics dashboard.
- Developed sentiment-based routing and knowledge-base suggestions; dashboard reports an 85% resolution rate, 2.3-hour response time, and 4.2/5 customer satisfaction.

F1 Podium Predictor & Championship Simulator

React, JavaScript, REST APIs

- Engineered a Monte Carlo simulation running 10,000 iterations to forecast race and championship outcomes using historical and current-season performance data.
- Integrated asynchronous REST API data fetching, error handling, dynamic scoring, and four interactive visualization panels for live race analysis.

Experience

Hudson Golf

IT Support & Hospitality Associate

May 2026 – Present

Hoboken, NJ

- Provide frontline support for TrackMan golf simulator software, resolving common connectivity, calibration, configuration, and user-interface issues to minimize guest downtime.
- Guide guests through simulator settings and gameplay in clear, nontechnical language while supporting hosting, serving, and bar operations in a fast-paced environment.

Stevens Software Engineering Club

Technical Project Manager

Aug 2025 – Present

Hoboken, NJ

- Lead a six-person cross-functional team building a job portal MVP; manage the roadmap, feature priorities, sprint coordination, and stakeholder communication.
- Introduced GitHub Actions workflows and code-review practices, reducing integration conflicts by 30% and improving delivery consistency.

The Wash Tub

Operations Data Analyst

Mar–Aug 2024; May–Aug 2025

San Antonio, TX

- Automated reporting workflows with Python, reducing discrepancies by 20%; analyzed operational metrics to identify bottlenecks and support process changes that increased efficiency by 15%.

Leadership & Involvement

Delta Tau Delta Fraternity - Rho Chapter

New Member Educator

Jan 2025 – Present

Hoboken, NJ

- Lead the education program for 20+ members, coordinating structured onboarding, chapter communication, and feedback initiatives to strengthen member engagement.

Languages: English (Native), Spanish (Fluent)
